Service from TransCanada Turbines UK, Ltd

Dear Sirs,

At the Silkeborg CHP Plant we have two GE LM6000 DLE PB engines. Our Plant entered commercial operation in December 1995 and our purpose is to supply the city of Silkeborg with District Heating. Total capacity, iso. conditions is 98 MW electricity and 88 MW District Heating.

Silkeborg CHP Plant has since 2001 had a Service Agreement with TransCanada Turbines UK, Ltd. An agreement we never been displeased with, all services have been carried out with a high standard of professionalism and on time.

TransCanada Turbines UK, Ltd have performed two Hot Sections Exchanges at the Silkeborg CHP Plant - One in August 2002 and the second in August 2003. Both HSE went as planned without any problems, delays etc., and again, TransCanada Turbines UK, Ltd performed a highly professional job.

Therefore Silkeborg CHP Plant has no problems recommending their service, assistance etc. to others.

If you have any questions of any kind please do not hesitate to contact undersigned.

Yours sincerely
Silkeborg Kraftvarmeværk A/S

Kenneth Larsen

Plant Manager
